Dunia MICE adalah mitra media terpercaya di industri Meetings, Incentives, Conventions, and Exhibitions (MICE), mendukung kesuksesan event melalui informasi terkini, promosi strategis, dan jaringan luas. Dengan pengalaman dan dedikasi tinggi, kami membantu penyelenggara acara memperluas jangkauan dan meningkatkan eksposur di industri MICE Indonesia.

Visi & Misi

Menjadi media partner utama yang mendukung pertumbuhan industri MICE melalui informasi dan strategi promosi inovatif.

Menghubungkan penyelenggara acara dengan audiens yang tepat, menyajikan berita terkini, serta memperluas jangkauan dan dampak setiap event.

Layanan

Media Partnership

Mendukung promosi event MICE dengan jangkauan luas dan strategi tepat sasaran.

Publikasi & Liputan

Menyajikan berita, artikel, dan liputan eksklusif untuk meningkatkan eksposur event.

Promosi Digital

Menggunakan platform digital untuk menjangkau audiens yang tepat dan sesuai.

Jaringan Profesional

Penghubung antara penyelenggara event dan pelaku industri serta komunitas MICE.

Berkualitas & Informatif

Menyajikan info terbaru dan tren terkini di dunia MICE.

Kolaborasi & Sponsorship

Membuka peluang kolaborasi strategis untuk memastikan kesuksesan setiap acara.

**Welcome Address
Chairman of Indonesia Textile Association**

On behalf of the Indonesia Textile Association, we would like to extend our gratitude to all who continue to work hard to ensure the success of this event and sincere appreciation to both participants and supporters of Inatex and Indo Intertex 2025.

As textile and textile products remains a high priority and key economic drive for the national development in Indonesia – Inatex – Indo Intertex continue to serve as a unique platform for all stakeholders to come together to discuss and debate the challenges and opportunities faced by the Indonesian textile and garment industry.

Bringing the topic of Investment Towards Making Indonesia 4.0, it has been regarded as the key to creating smart factories in Indonesia's TPT sector, implementation of innovative technologies is critical, as part of its plan to make the world's top five textile and apparel producers by 2030.

For that reason, Indonesia Textile Association (API) will continuously support the Inatex – Indo Intertex exhibition to promote Indonesia textile and apparel industry into global market.

We sincerely hope that this event will be beneficial to all and bring productive work to the entire community, the textile and garment industry in particular.

NATIONAL BOARD

INDONESIA TEXTILE ASSOCIATION

**Jemmy Kartiwa Sastraatmaja
Chairman**

INWA

Welcome Address

Chairman of Indonesian Nonwoven Association

Ladies and gentlemen,

Good morning and a warm welcome to INATEX 2025, the premier textile exhibition showcasing innovation, creativity, and collaboration in the textile industry. As the Chief of the Indonesian Non Woven Association, Velda Agustino, it is my distinct honor to welcome each and every one of you to this esteemed gathering.

INATEX 2025 serves as a platform for industry leaders, innovators, and enthusiasts to come together and explore the latest trends, technologies, and advancements in the textile sector. It is a testament to the remarkable strides we have made as a global community in pushing the boundaries of textile manufacturing and design.

Indonesia, with its rich heritage and vibrant textile industry, stands at the forefront of this evolution. Our nation's commitment to excellence and sustainability has propelled us to new heights, earning accolades and admiration on the global stage.

Before we proceed further, I would like to extend my heartfelt thanks to the event organizer, Peraga, for their tireless efforts in orchestrating this remarkable gathering. Their dedication and attention to detail have ensured that INATEX 2025 is a resounding success, providing us with an unparalleled platform for collaboration and growth.

As we embark on this journey over the next few days, I encourage you to engage, collaborate, and exchange ideas with your peers. Let us seize this opportunity to forge new partnerships, discover innovative solutions, and chart a course towards a more prosperous and sustainable future for the textile industry.

Once again, I extend my heartfelt welcome to each and every one of you. May INATEX 2025 be a source of inspiration, knowledge, and growth for all who participate.

Thank you

Chairman of INWA

Velda Agustino

**Welcome Address
Chairman of Indonesia Printing Community**

Assalamu'alaikum Wr. Wb.
Salam Sejahtera bagi kita semua,

Puji syukur ke hadirat Tuhan YME, atas izin-NYA, INDO INTERTEX, INDO TEXPRINT dan rangkaian lainnya kembali bisa hadir untuk yang ke 21 kalinya, dalam format pameran offline, yang diselenggarakan selama 3 hari mulai dari 15, 16 dan 17 April 2025 di Jakarta International Expo, oleh PT. PERAGA NUSANTARA JAYA SAKTI.

Setelah pandemi Covid-19 yang melanda dunia, termasuk Indonesia, berdampak sangat signifikan baik terhadap kondisi ekonomi individu, perusahaan maupun negara. Kini sama-sama kita maklumi kondisi perekonomian nasional Kita sedang tidak baik-baik saja. Industri Textile Printing nasional yang merupakan kelompok industri TPT (tekstil dan produk tekstil) salah satu jenis usaha yang sangat merasakan dampak nya.

Pameran INDO INTERTEX 2025 yang penyelenggaraannya bertujuan untuk memperkenalkan teknologi baru di industri tekstil dan garmen serta memberikan solusi komprehensif untuk seluruh rantai manufaktur tekstil dan garmen dengan menampilkan elemen-elemen penting untuk mendorong pertumbuhan industri tekstil Indonesia.

Selain itu, pameran ini memainkan peran penting bagi para pelaku industri tekstil di Indonesia. Dia menilai, pameran ini menjadi wadah untuk merintis, memperluas hingga memimpin transformasi sektor tekstil dan garmen lokal dengan memperkenalkan teknologi baru dari dunia

"Untuk pameran tahun ini sebagaimana dimaklumi teknologi yang akan ditampilkan adalah teknologi terbaru yang mendukung konsep sustainable fashion, energy efficiency dan digitalisasi. Sedang tentang pengunjung, Peraga Expo menargetkan akan ada sebanyak 16.000 pengunjung dari kalangan profesional maupun pelajar yang akan hadir.

KOPI GRAFIKA INDONESIA (Indonesia Printing Community) menyambut baik dan mendukung sepenuhnya penyelenggaraan pameran INDO TEXPRINT 2025 dan lainnya. Selamat kepada PT. PERAGA NUSANTARA JAYA SAKTI selaku penyelenggara, dan selamat mengikuti pameran kepada peserta dan pengunjung. Semoga kesuksesan menyertai kita semua. Terima kasih.

Jakarta, Maret 2025

**PENGURUS
KOPI GRAFIKA INDONESIA**

Drs. Usman Batubara
Ketua Umum

**Welcome Address
Chairman of Indonesia Fiber & Filament Yarn
Makers Association**

Sustained economic growth and rising standards of living and purchasing power make Indonesia – the world's fourth most populous country with about 260 million people – an attractive market for textiles and clothing. Meanwhile, the rich middle class in Indonesia's textile sector also faces challenges to achieve self-sufficiency in its clothing and apparel needs. Therefore, the role of the textile industry is very strategic, not only in meeting increasing domestic needs, but also in generating foreign exchange by encouraging exports. Moreover, with the most dynamic and young demographic profile, the textile and apparel industry is the main job provider in the manufacturing sector and accelerates economic stability.

One of the industry's advantages is the presence of well-developed upstream and downstream businesses, which support vertical integration and close operational synergies. However, there are still some problems in the value chain in terms of competitiveness, technology improvement, etc. The potential for future global recession needs to be addressed in efforts to mitigate the economy in Indonesia. The importance of the domestic market as the main pillar in the development of the national economy is a priority in efforts to mitigate the potential for global recession. The government's joint efforts to support the textile and apparel industry should be appreciated and supported by all stakeholders. This is an effort by the Indonesian Fiber and Filament Yarn Makers Association (APSyFI) to support the domestic textile sector to be more vibrant.

We at (APSyFI) are grateful for the initiatives taken by INDOINTERTEX and INATEX 2025 in promoting the Indonesian Textile sector to the next level and strongly support the objectives of organizing the event. This exhibition is also a symbol of the awakening of the TPT industry and the resilience of the industry in facing future challenges.

We hope that all members of the organization and Textile industry will greatly benefit from such events and exhibitions, which will greatly help in assimilating knowledge to continuously improve the competitiveness of the sector.

Indonesia Fiber and Filament Yarn Makers Association

Redma Gita Wirawasta
Chairman

**Welcome Address
Chairman of Indonesian Textile Expert
Association (IKATSI)**

Assalamu'alaikum waRahmatullahi waBarakatuuh,

Selamat Pagi, Salam Sehat, Salam Semangat dan Salam Sejahtera untuk Kita semua,
Salam Tekstil Indonesia Jaya!

Yang Kami hormati:

1. Menteri Perindustrian dan Jajaran Pejabat Teras Kementerian Perindustrian RI
2. Menteri Perdagangan dan Jajaran Pejabat Teras Kementerian Perdagangan RI
3. Para Pimpinan Asosiasi di Bidang Industri Tekstil beserta Jajaran Pengurus dan Para Anggota-nya
4. Pihak Penyelenggara Inatex - Indo Intertext 2025
5. Para Tenant / Vendor dari Dalam dan Luar Negeri yang berpartisipasi pada event Inatex – Indo Intertext 2025
6. Seluruh Pengurus DPP IKATSI Periode 2023-2027 yang Kami banggakan
7. Seluruh Anggota IKATSI yang Kami cintai

Dalam kesempatan ini Kami sangat berterima kasih atas kepercayaan dan kerjasama yang telah diberikan oleh pihak penyelenggara INATEX - Indo Intertext 2025 / PT Peraga Nusantara Jaya - Semoga kerja sama ini menjadi titik temu yang dapat memberikan kontribusi positif untuk kemajuan Industri Tekstil dan Produk Tekstil Indonesia.

Kita semua memahami dan mengalami bahwa pada tahun-tahun ini industri tekstil dan produk tekstil Indonesia mengalami kontraksi dan tantangan yang sangat berat, mulai dari hantaman covid 19 kemudian disusul dengan melemahnya ekonomi dunia yang dipicu oleh perang Rusia-Ukraina, dan ditambah dengan situasi peperangan di Timur Tengah yang tentunya ikut melemahkan perekonomian dunia. Situasi dalam negeri juga tidak kalah sulitnya dengan, ketidakpastian politik menjelang penetapan presiden, melemahnya daya beli masyarakat, dan yang paling dahsyat adalah gempuran produk-produk import baik yang masuk secara resmi maupun yang tidak tercatat dengan derasnya membanjiri pasar dalam negeri mulai dari bahan baku serat sampai dengan produk garmen/apparel dan aksesorisnya. Data Kontribusi Manufaktur Indonesia terhadap PDB (Produk Domestik Bruto) pada tahun 2023 hanya sebesar 18,75%, hal ini menunjukkan peran industri masih sangat lemah terhadap Perekonomian Nasional, walaupun pertumbuhan ekonomi Indonesia masih diatas 5%, sungguh dapat Kita lihat disini telah terjadi de-Industrialisasi - Sebuah ironi dimana pertumbuhan ekonomi terjadi, tetapi, kekuatan industri melemah.

Sudah lebih dari 1 abad Indonesia memiliki dan menjalankan Industri TPT dan sempat menjadi Primadona sebagai penyumbang devisa negara terbesar selain

minyak dan gas serta penyerapan tenaga kerja lebih dari 4 juta. Industri tekstil nasional saat ini masih didominasi oleh produksi material tekstil untuk kebutuhan sandang reguler, dimana area ini menjadi area dengan persaingan yang ketat dengan margin keuntungan yang terus menipis, disisi lain negara-negara yang baru bergerak menjadi negara industri juga sudah mengerjakan hal yang sama seperti : Vietnam, Bangladesh dan bahkan beberapa negara di Benua Afrika sudah membangun industri tekstilnya dengan permesinan modern dan perencanaan infra struktur yang lebih mapan sehingga menghasilkan Industri TPT yang lebih efisien dan sangat kompetitif.

Indonesia dengan pengalaman dalam industri tekstil yang panjang seharusnya dapat menghadapi situasi persaingan ini dengan mengeluarkan diri dari pertarungan produk sandang reguler menuju produk tekstil yang sarat dengan nilai tambah dan teknologi dan ekspansi produknya untuk memenuhi kebutuhan tekstil pada sektor lain seperti konstruksi bangunan dan jalan raya, otomotif, medis, elektronik, olahraga, pertambangan, dirgantara, dan lain sebagainya. Sebagian contoh sektor-sektor tersebut membutuhkan material tekstil sebagai bahan penunjangnya bahkan di belahan Eropa, sebagai contoh Jerman dimana Negara ini sudah berhasil membuat jembatan mobil yang 100% menggunakan material Tekstil Komposit karena dipercaya memiliki kekuatan dan daya tahan yang lebih baik dibanding material Logam dan Beton Cor (Concrete) biasa, atau contoh lain adalah serat Karbon, Kita menyaksikan penggunaan material serat Karbon ini sudah sangat masif hampir pada seluruh bidang kehidupan mulai dari alat olah raga seperti raket, stick golf, sepeda, jet-boat, mobil sport sampai bagian interior dan body pesawat terbang sudah dominan menggunakan material Tekstil Serat Karbon.

Kelebihan material tekstil seperti ini harus terus dieksplorasi dan dielaborasi lebih jauh dan menjadi fokus industri melalui kegiatan riset dan pengembangan untuk menciptakan produk-produk baru yang dapat membuka market baru yang belum terjamah oleh persaingan ketat seperti produk sandang reguler.

IKATSI yang beranggotakan Ahli-ahli tekstil di Seluruh Indonesia siap mendukung Transformasi Industri Tekstil Nasional menjadi industri unggul yang sarat dengan penerapan teknologi terkini, anggota IKATSI siap menjalankan perannya sebagai praktisi industri, pengembangan riset dan teknologi untuk menciptakan material tekstil maju, proses produksi, dan standarisasi, serta elemen-elemen lainnya untuk mewujudkan industri TPT sebagai salah satu pilar utama penyokong kekuatan industri manufaktur dalam negeri menuju Indonesia Emas - 2045.

Selamat bersynergy dan berkolaborasi,

Selamat berSeminar, dan, Selamat menikmati Pameran yang Konstruktif ini.

Wassalamualaikum waRahmatullahi waBarakatuuuh,

Salam Hormat,

Ketua Umum DPP IKATSI,
Ir. H M Shobirin F Hamid, AT., SE., MM

Welcome Address
Chairman of Asosiasi Pemasok Garmen & Aksesori Indonesia
(APGAI)

Allow us to firstly introduce ourselves, we are from the Indonesian Garment and Accessories Suppliers Association, as the Supporting Association for the Indo Intertex 2025 Exhibition. This event is a place for innovations, collaborations, and exchange of ideas, bringing together industry leaders in manufacturing, technology providers, as well as designers from all around the world.

The textile and garment industry plays an important role in the global economy, and we are proud to be part of this Exhibition. Being a local garment and fashion retailers in Indonesia, and the end-users of textile products, innovative materials with good quality and price, are essential elements to our retail industry.

During this exhibition, we hope that our members will have the opportunity to find the products they are looking for. Engage in meaningful discussions, and build valuable connections that will help shape the future of our business. As well as propel our local brands to be as equally competitive as other international players. Being able to be the host in our own country is our ultimate goal.

We would like to express our gratitude for being entrusted as a supporting association for this event, and it is with our sincere hope that Indo Intertex Exhibition will continue and to be ever successful for many years to come.

Warm regards,

Hendry Sagoro
General Secretary of APGAI

Welcome Address
Chairman of Indonesia Exhibition Companies
Association (IECA/ASPERAPI)

Warmest greeting from IECA/ASPERAPI for all Exhibitors and Visitors!

On behalf of Indonesia Exhibition Companies Association, I want to lend our full support to **PT. Peraga Nusantara Jaya Sakti** for organizing **Inatex 2025, Indo Intertex 2025, Indo Texprint 2025, Indo Dychem 2025.**

Taking place at Jakarta International Expo Kemayoran Jakarta Indonesia on 20-23 March 2025, this exhibition will improve the Indonesian company growth and impress its enthusiast with the latest and widest range of technologies and business solutions.

We hope that through this exhibition, there will be more opportunities for key players in the global textile market and industry to grow, thus sustaining the national economic growth and in particular developing most favorable foundation for textile industry in Indonesia to share significantly in contributing the nation's revenue. Visitors can preview the product launches by prominent industry players, uncover exciting technological ideas and new business opportunities and form alliances with new business partners and stay connected with the world.

Best wishes for PT. Peraga Nusantara Jaya Sakti and for many successful years to come. We would also like to extend our warmest welcome for the exhibitors and the visitors, wishing you a rewarding and enriching time at this exhibition.

We wish you success in this exhibition!

Jakarta, February 2025

Board of
Indonesia Exhibition Companies Association

PERAGA^{EXPO}

Welcome Address

The Organizer – Peraga Expo

Dear Exhibitors and Visitors

I'd like to extend my warmest greetings and welcome you back to the 21st offline edition of INATEX – INDO INTERTEX 2025, which will take place at the Jakarta International Expo alongside INDO DYECHEM, and INDO TEXPRINT.

The fashion industry is shifting towards eco-friendly and sustainable materials, making them the most in-demand trend. The global sustainable fabric market, currently worth \$29.1 billion, is expected to grow from \$32.74 billion in 2024 to \$74.8 billion by 2032. INATEX - INDO INTERTEX 2025 plays a key role in Indonesia's textile industry as the leading platform for innovation and growth. It features a wide range of sustainable products, such as organic fibers, recycled textiles, plant-based materials, waterless dyeing, smart textiles, DTG printers, and more, with more than 500 exhibitors who will participate.

Throughout the exhibition period, there will be many collaboration programs, including seminars and workshops with experts from associations and partners, trend color zones, and build your brand to share valuable advice and interesting lectures on textile and garment technology.

On behalf of the organizing committee PT. Peraga Nusantara Jaya Sakti and the Indonesian Textile Association (API), I would like to express my sincere gratitude for the excellent support from the Indonesian Nonwoven Association (INWA), Indonesian Fiber & Filament Yarn Producer Association (APSyFI), Indonesian Printing Community (KOPI), Indonesian Textile Expert association (IKATSI), Indonesia Baby Clothing and Equipment Entrepreneurs Association (P4B), The Indonesian Garment and Accessories Suppliers Association, as well as other institutions, communities, and associations for their efforts to successfully organize the 21st INATEX – INDO INTERTEX, INDO DYECHEM & INDO TEXPRINT 2025.

We hope that this event will foster more collaboration between manufacturers, innovators, and researchers. May you have many interesting discussions and exchanges of ideas, and may textile and textile products (TPT) entrepreneurs gain new insights and build long-term businesses.

PT. Peraga Nusantara Jaya Sakti

Paul Kingsen
Project Director

The Indonesian Textile Association (API) is a non-profit organization that represents the textile industry in Indonesia. The API was founded in Jakarta in 1974 by textile entrepreneurs.

The Indonesian Textile Association (API) was established in Jakarta by a number of textile entrepreneurs on June 17th 1974. API is a textile organization covering the whole textile industry sector ranging from mainstream to downstream industry (the making of fiber and filament, texturising, spinning, weaving, knitting/embroidery, dyeing/printing/finishing, batik, garment, and other textile articles as well as trade of national textile products). API focuses on serving the needs and interests of members and other textile stakeholders. The activities cooperate with all stakeholders, including the government, textile employers, textile machinery, designers associations, universities and academia, press, experts on textiles, and others with a view to develop the textile industry and trade in Indonesia.

YEZHUYUAN is a well-known printing polymer manufacturer in China. Established in 2011, it is located in Jinzhou Circular Economy Industrial Park. Our company covers an area of 100 acres and the building area is about 26,000 square meters. The company produces sodium carboxymethyl cellulose (CMC), polyanionic cellulose (PAC), sodium carboxymethyl starch (CMS), textile printing and dyeing grade sodium alginate. Our company's mature products have been developed and produced more than 200 varieties of industrial grade. YEZHUYUAN created a new generation of hydrocolloid S86 and YS97 with independent intellectual property rights and extremely high cost performance. The product has ended the myth that sodium alginate is irreplaceable in the industry and laid a solid foundation for enterprises to achieve leapfrog development.

KEWALRAM INDONESIA, PT

Stand No: HD C3

Address: Jalan Raya Rancaekek KM 25 Kab. Sumedang, Bandung, 40010, Indonesia

Telephone: +62 815-7300-1223

Email: embroidery@kewalram.co.id

Website: www.kewalram.com

Contact Person: Ibu Juwita

Kewalram Indonesia had a modest beginning the installation of a spinning mill in 1976 in Bandung, Indonesia. Since then, it has grown to become a large integrated textile facility covering spinning, embroidery, Garments, and a dye house equipped with state-of-the-art machinery. Our customer-oriented approach, coupled with exacting quality

led to increased demand for our products and thereby enabling our growth over the years. Our products are exported to over 60 countries across the globe reflecting the company's strong commitment and emphasis on quality. The company also has a substantial presence in the domestic markets with a wide range of products offering. Kewalram has achieved the leadership position in its product range based on its unwavering commitment to the highest quality standards and drive towards total consumer satisfaction. With the acquisition of our second mill, we are striving to deliver our best-class products to our ever-demanding satisfied customers. We are one of the first integrated textile units to receive the ISO (ISO 9001: 2015 & STANDARD 100 by OEKO-TEX®) accreditation for quality management in Indonesia. Adding to our ever-growing quality standards, We are now certified with the COTTON USA Licensee, Supima Licensee, US Cotton Trust Protocol Licensee, and BCI Cotton, reflecting its commitment to striving for excellence with sustainable growth. Responsible Sourcing & Traceability Policy. PT KEWALRAM INDONESIA manufactures spinning, embroidering & dye house and has a range of count ranges of yarn, embroidery fabrics & dyehouse. This involves the purchase of raw materials, packaging materials, and their storage, handling, and conversion via multi-stage processing to the final product. The purchasing decisions of PT KEWALRAM INDONESIA can affect society and the environment beyond the immediate impact of its own operations. Responsible sourcing involves the promotion and support of broader-scale adoption of responsible practices throughout the supply chain. This can stimulate demand for socially and environmentally preferable products. As part of this process, waste is produced,

emissions to land air, and water are made and energy is consumed. The President Director of PT KEWALRAM INDONESIA Ltd accepts that it is their responsibility to reduce the global and local effects of the company's activities. To this end, the Purchase Manager s has specific responsibility for the management of the Responsible Sourcing Programme of the company and ensuring PT KEWALRAM INDONESIA meets the requirements set out in the Standard for the Responsible Sourcing of raw material which requires producing the yarn, embroidery fabric, and dye house. We are empowering the ethical trading and corporate social responsibility (CSR) best practices with our Sadex Members Ethical Trade Audit (SMETA) Ethics – recognize the need to adopt and apply standards of ethical behavior appropriate to the purpose and activities of the organization. Legal Compliance – Compliance with all applicable laws and regulations. Management Systems – have systems in place to operate in a legal, efficient, and financially sustainable manner with continual improvement in the management of quality, health and safety, the environment, and human resources. Supply Chain Management – communicate and work constructively with the supply chain to deliver sustainable policies and practices. Stakeholder Engagement – identify stakeholders affected by the activities of the organization and its supply chains and be responsive to their needs. Complaints and Prosecutions – operate with transparency and record and report all complaints and prosecutions and associated corrective actions. Fundamental Rights at Work – respect international norms concerning human rights and labor practices and recognize fundamental rights at work including the abolition of child labor, forced or

compulsory labor, the rights of freedom of association and collective bargaining, and the elimination of discrimination. Health and Safety – operate in a responsible manner to protect employees, contractors, and visitors. Climate Change and Energy – Use energy efficiently in the production of materials and products and minimize the emission of greenhouse gases associated with these processes. Reduce fossil fuel consumption and review the utilization of renewable sources of energy. Resource Use – recognize the need to use all materials in the most appropriate manner. Site Stewardship – be responsible stewards of sites used by preventing pollution and recognizing the importance of national heritage, ecological value, and biodiversity during use and after the end of life of each site. Water – use water efficiently to minimize demand on potable water supplies, and treat process water and site run-off effectively to mitigate against pollution risks. Waste Management – manage all waste streams effectively by adopting the waste reduction hierarchy and mi

List of Product: Fabrics, Bed Linens, Decorative Cushions, Curtains, Curtain Textiles and Accessories, Upholstery Fabrics

For twenty years, we have been cultivating the textile industry and creating excellent quality through vertical integration of the industrial chain. From fiber to finished product, the entire process is independently controlled, and a 360 ° quality control system is established. Each batch of goods is fully inspected and certified, and the quality is guaranteed first (unconditional returns and exchanges for quality issues), making cooperation start with peace of mind. Relying on our independent research and development center and flexible supply chain, we focus on providing precise value to our partners:

Requirement oriented development: A professional team responds quickly and creates highly adaptable product solutions with cutting-edge industry insights

✓ Cost advantage empowerment: Large scale production combined with supply chain collaboration helps customers win market competitiveness

✓ Adhere to business ethics: Exclusive supply of customized products, strict protection of trade secrets, and construction of a moat
Twenty years of zero quality dispute record witnessed quality commitment, with over 98% of customers achieving continuous cooperation for more than three years.
Choosing us is not only about choosing reliable suppliers, but also about obtaining strategic partners in textile solutions - weaving with artisan cores to add value to the brand.

PT. Sinar Sukses Mandiri spans 17 hectares and operates as a prominent dyeing and printing facility specializing in dyed and printed fabrics. Initially established in 2016 as a locally owned knitted-dyeing company, PT. Sinar Sukses Mandiri expanded its operations by opening a printing division in 2017 and further diversified its product line to include woven fabrics in 2018. Additionally, the company ventured into the production of bed covers to cater to retail markets. The company's fast, responsive, and customer-centric approach has been widely embraced by the community. As of 2023, PT. Sinar Sukses Mandiri has continuously expanded its production capacity to 120 tons per day while simultaneously enhancing its quality standards. The company proudly achieved the OEKO-TEX certification in 2023.

Hohenstein's OEKO-TEX® Certification: Your Guide to Safe Textiles

The OEKO-TEX® Certification is a globally recognized certification system for textiles and leather goods. It ensures that products, from raw materials to finished articles, meet stringent human-ecological requirements.

Key Benefits:

Safety: Minimizes harmful substances like pesticides, heavy metals, and allergenic dyes.

Consumer Confidence: Provides reassurance that products are safe for human health.

Brand Image: Enhances brand reputation and attracts eco-conscious consumers.

Market Access: Opens doors to markets with strict environmental and social standards.

Hohenstein as an independent testing and research institute, plays a crucial role in OEKO-TEX® certification. They conduct rigorous tests to ensure compliance with the strict criteria

Our mission is to bring craftsmanship into every stitch of embroidery, ensuring that each product reflects passion and precision. With more than three decades of experience managing top embroidery organizations and gaining wide exposure through extensive travel, we have developed a deep understanding of the industry's leading brands.

We decided to channel our expertise and creativity into Vikaro, where our detailed knowledge of the embroidery business, strong interpersonal relationships, and commitment to customer satisfaction allow us to deliver unique, personalized embroidery that tells a story and leaves a lasting impression.

We take pride in being a design-driven organization with a robust sourcing network, dedicated to excellence in both design and execution.

Our Uniqueness

We are a product-focused company that excels in design, supported by a talented team of designers who consistently develop new concepts. Utilizing specialized embroidery machines, we ensure our garments reflect innovation and freshness every day. This approach brings a unique exclusivity to our offerings, encompassing everything from fabric to embroidery—all under one roof.

To lead through innovation and excellence,

offering tailored solutions that optimize supply chains, explore new markets, and elevate brand value, while embracing diversity, sustainability, and advanced technologies to shape the future of our industry

Winda Technology Limited is a high-tech enterprise specializing in R&D, Manufacturing, Marketing and after-sales of garment CAD/CAM software and equipment. We provide completely equipment solutions for garment processing enterprises. We adhere to customer demand-oriented and constantly strengthen product research and development to meet the needs of high-end, special, mechanical & electrical integration equipment from garment processing enterprises, to provide cost-effective products.

At the same time we are also looking for the best quality and renowned manufacturers of textile machine for Weaving, knitting, Dyeing, Finishing, etc. Through negotiations and subsequent agreements, we became representative in Bangladesh of some world-famous brands of machine-like BULLMER, MAICA, VI.BE.MAC, LENSH, CNDING etc. Our Bangladesh, Vietnam and Indonesia branches have been operating locally & providing customers with fast and professional services, effectively helping customers improve the production efficiency and save in operating costs. Our professional and dedicated service has won the praise of our customers. With more than 20 years of rich experience in

the garment industry and professional team, after years efforts in research and development, our products involve the entire garment manufacturing line, such as CAD/CAM, Cutting, Sewing, Ironing, Packaging, serials including Knitting, Shirts, Suits, Jeans, Jackets, Underwear. Our products are popular to export to more than 30 countries and regions around the world: Bangladesh, Vietnam, Indonesia, India, Thailand, Myanmar, Cambodia, South Korea, Pakistan, Sri Lanka, Ethiopia, Mauritius, Russia, South Africa, Saudi Arabia, etc.

Su Lee Machine Industries is a leading
manufacturer of cutting machine products,
providing engineering solutions and services
to a variety of industries. We specialize in
producing automated and hand-held fabric
cutting machines engineered for cutting a
diverse range of traditional, modern and
industrial fabrics used in the market today.

Our mission is to give you the best textile
cutting solution – and always at a great price.
With over 40 years of experience, we have
perfected our design to cut any fabric used in
the market today. Our guarantee to you are
your cutting requirements realized.
